

LEAD POURING WITH JEMMA

Will I find somebody to share woollen blankets with in 2018 or do I have to start a revolution? Will I continue to sadly dance my pizza ballet routine in the new year, or will the giant Lovefool wave carry me away? Am I directly on a collision course with a Giftzwerg or is there a reason to smile, smile, smile?

Questions upon questions. While we can not summon spirits with you, we will still help you to take a look into your future. How should this work? Classic lead pouring, simple as that. Traditionally in Germany on 31st of December, people play this little oracle game and try to find out what fate has in store for them.

You need the following:

- a lead pouring kit (spoon and figurines)
- a candle and matches/ lighter
- a bowl of cold water
- interpretation list (see below)

Instructions:

1. Prepare everything and light the candle.
2. Place a lead figurine on your spoon and heat it over the candle flame.
3. Wait until the lead has completely liquefied on the spoon.
4. Dump the lead into your water bowl with one swift movement. (Advice: Hold the spoon as close to the water surface as possible in order for the lead not to splash.)
5. In the water the lead cools down immediately and you can fish it out.
6. Look at the new solidified object as it is or even better: Cast the shadow of the new lead figurine on the wall.
7. Use the interpretation list below and see what awaits you in 2018.
